

Company Profile

Quick Facts

- PCI Education is the number one provider of resources for students with special needs.
- The company distributes more than 7,500 instructional materials, including educational programs, games, software, worksheets, and manipulatives.
- PCI Education offers the widest variety of resources for students with special needs, which makes it easy for teachers to find exactly what they need quickly.
- The company's resources blend academics with life skills, to help students with special needs function independently and responsibly within their communities.
- PCI Education helps teachers lead their students to success in school, at home and in the community.
- Jeffrey T. McLane and Janie Haugen-McLane founded the company in 1991.

Products & Services

- Experts develop instructional materials adapted for every population, which blend research-based insights with best classroom practices.
- PCI Education products are suitable for students with learning differences as well as intellectual and developmental disabilities such as autism, mental retardation and Down's syndrome.
- The company's products can also be used in English language learner and adult literacy classes, and to help students performing below grade level.
- Products are highly visual, with a clean and uncluttered layout to assist struggling learners, and lesson plans include many tactile and kinesthetic activities to foster motivation and retention.
- National board-certified consultants work with districts to develop comprehensive education plans that successfully implement custom curriculum solutions.
